Welcome to APETNA 2011

Bangkok, Thailand

It is my pleasure to welcome you to congress of the 4th Asian Pacific Enterostomal Therapy Nurses Association (APETNA) which is sub group of WCET. We are extremely proud and excited to be hosting this congress here in Bangkok, Thailand, which I'm sure you will find, is an idyllic location for such an event. The congress will run from 2nd- 4th December 2011.

The theme of the 4th Congress will be 'The Value of Experience in Patient Care'. I am confident that this congress will be instrumental in updating participant's knowledge by presenting to you current developments of best practice in the management of ostomy, wounds and incontinence as experienced by concerned nurses. By allowing us to share the knowledge and experiences through the presentation of each region's best practice, evidence-based research and up-to-date techniques, I am sure that attendees at this congress will return home with a truly memorable and professional experience.

A big advantage in joining us here in Bangkok is that it will run conjointly with The 13th Asia Pacific Federation of Coloproctology (APFCP) where ET nurses and Coloproctologists will have the opportunity to share our common concerns and interests in caring for our patients.

The Conference venue : PLAZA ATHÉNÉE BANGKOK, A ROYAL MÉRIDIEN HOTEL, located on the most beautiful tree-lined avenue in the heart of Asia's favorite destination for culture and entertainment, BTS skytrain; Ploenchit Station will allow our guests to quickly reach major sightseeing attractions within close proximity of each other, such as Chao Phraya River with 'The Temple of The Emerald Buddha' (Wat Pra Keow); The Grand Palace and The Temple of The Dawn (Wat Arun) as well as Lumpini Park and others closer to the heart of Bangkok's business and tourist centered district.

Make your booking now! and also consider making a contribution yourself by presenting Paper or a Poster. Looking forward to seeing you in Bangkok, Thailand.

With Warm Regards,
Dr. Yuwadee Kestsumpun, RN, PhD, ET.
Congress Convenor
